

**ENDORSEMENT EXCLUDING A COMMUNICABLE DISEASE FOLLOWING
A PUBLIC HEALTH EMERGENCY OF INTERNATIONAL CONCERN (PHEIC)**

(for use on marine liability and energy liability contracts)

1. In the event that the World Health Organization ('WHO') has determined an outbreak of a **Communicable Disease** to be a Public Health Emergency of International Concern (a '**Declared Communicable Disease**'), no coverage will be provided under this (re)insurance for any loss, damage, liability, cost or expense directly arising from any transmission or alleged transmission of the **Declared Communicable Disease**.
2. The exclusion in paragraph 1 of this endorsement will not apply to any liability of the (re)insured otherwise covered by this (re)insurance where the liability directly arises from an identified instance of a transmission of a **Declared Communicable Disease** and where the (re)insured proves that identified instance of a transmission took place before the date of determination by the WHO of the **Declared Communicable Disease**.
3. However even if the requirements of paragraph 2 of this endorsement are met, no coverage will be provided under this (re)insurance for any:
 - A. liability, cost or expense to identify, clean up, detoxify, remove, monitor, or test for the **Declared Communicable Disease** whether the measures are preventative or remedial;
 - B. liability for or loss, cost or expense arising out of any loss of revenue, loss of hire, business interruption, loss of market, delay or any indirect financial loss, howsoever described, as a result of the **Declared Communicable Disease**;
 - C. loss, damage, liability, cost or expense caused by or arising out of fear of or the threat of the **Declared Communicable Disease**.
4. As used in this endorsement, **Communicable Disease** means any disease, known or unknown, which can be transmitted by means of any substance or agent from any organism to another organism where:
 - A. the substance or agent includes but is not limited to a virus, bacterium, parasite or other organism or any variation or mutation of any of the foregoing, whether deemed living or not, and
 - B. the method of transmission, whether direct or indirect, includes but is not limited to human touch or contact, airborne transmission, bodily fluid transmission, transmission to or from or via any solid object or surface or liquid or gas, and
 - C. the disease, substance or agent may, acting alone or in conjunction with other co-morbidities, conditions, genetic susceptibilities, or with the human immune system, cause death, illness or bodily harm or temporarily or permanently impair human physical or mental health or adversely affect the value of or safe use of property of any kind.
5. This endorsement shall not extend this (re)insurance to cover any liability which would not have been covered under this (re)insurance had this endorsement not been attached.

All other terms, conditions and limitations of this (re)insurance remain the same.
